F O R   T H E   Y E A R   -   1 9 6 2

.....

To the CHAIRMAN and MEMBERS of the

L E Y B U R N   R U R A L   D I S T R I C T   C O U N C I L

.....

Mr. Chairman, Gentlemen,

I have pleasure in submitting my  
REPORT on the health of the district for the year 1962.

The vital statistics compare very  
favourably with those for England and Wales and do not call for any  
special comment. The incidence of notifiable infectious diseases  
remained at a low level.

The steps taken during the year  
to form a Northallerton and Dales Water Board are now completed.  
Some samples were of inadequate quality and supplies are still liable  
to be inadequate in quantity.

Progress in re-housing and building  
continued on a satisfactory scale.

I am, Gentlemen,

Your obedient Servant,

H. Diggles.

November 1963

Medical Officer of Health.

## SECTION A

### STATISTICS AND SOCIAL CONDITIONS OF THE AREA

#### GENERAL STATISTICS

(a)	Area (in Acres)	71697
	Population(Registrar General's estimate of resident population -mid-year 1962	6250
	Population (1931) Census	6851
	Population (1951) Census	6423
	Population (1961) Census	6138
	Increase of resident population mid 1961 & mid 1962	10
	Number of Inhabited houses. (1951)	1871
	Number of Inhabited houses. (1962)	1975
	Rateable value of district (1st. April 1962)	£59635
	Product of ld. rate	238

## NATIONAL ASSISTANCE ACT - 1948

It was not necessary to take action under Section 47 of the above Act, which gives the Council power to remove to suitable premises, persons who are not able to devote to themselves and are not receiving from other persons, adequate care and attention.

## SECTION B

### GENERAL PROVISION OF HEALTH SERVICES IN THE AREA

Details of the Staff are given at the beginning of the REPORT.

#### LABORATORY FACILITIES

Laboratory facilities are provided at the Public Health Laboratory, Friarage Hospital, Northallerton.

#### AMBULANCE FACILITIES

The North Riding of Yorkshire County Council supply Ambulance Services from their stations at Northallerton and Bainbridge.

#### HOSPITAL SERVICES

Local Hospital Accommodation is provided by the Northallerton Hospital Management Committee of the Newcastle Regional Hospital Board. In addition, a number of residents in the Leyburn Area received both in-patient and out-patient treatment at Darlington and Harrogate Hospitals.

#### NURSING IN THE HOMES

The Home Nursing and Domiciliary Midwifery service is under the general direction of the County Council, with day to day administration being dealt with by the Wensleydale Area Local Health Committee. Four district nurse/midwives operate in the area.

#### DOMESTIC HELP SERVICE

This is provided by the County Council, the day to day administration again being dealt with by the Area Health Sub-Committee through the Area Medical Officer.

## SECTION C

### WATER SUPPLIES

Details are to be found in the Public Health Inspector's Section.

### SEWERAGE & SEWAGE DISPOSAL

Details are to be found in the Public Health Inspector's Section.

### REFUSE DISPOSAL

Details are to be found in the Public Health Inspector's Section.

.....

## SECTION D

### PREVALENCE & CONTROL OF INFECTIOUS DISEASES

Infectious diseases notified	Males	Females	Total
Measles      ...      ...      ...      ...	31	46	77
Pneumonia    ...      ...      ...      ...	3	6	9
Scarlet fever.	1	-	1
Tuberculosis.	1	1	2

### VACCINATION & IMMUNISATION

The following figures indicate the immunisation state of the child population in the Wensleydale Local Health Area, of which Leyburn Rural District is part.

<u>Age group</u>	<u>Immunised.</u>
0- 4	40%
5- 15	52%

### DIPHTHERIA IMMUNISATION

Although it is pleasing to see that a considerable number of children have received a booster dose against diphtheria before starting school, it is distressing to find that a number of parents will not allow their children to be immunised at this age. Most of these children were never protected against diphtheria in infancy. Several outbreaks of diphtheria have recently been reported from different parts of the country. Parents should remember that although poliomyelitis has stolen the limelight in recent years, diphtheria can recur at any time with all the dangers and complications that were commonplace twenty years ago.

## SECTION D.

### SMALL POX VACCINATION

61% of the children born in the Wensleydale Local Health Area during the year were notified as having been vaccinated against smallpox (66% in 1961)

### POLIOMYELITIS VACCINATION

By the end of the year - 8506 children aged under 15 years in the Wensleydale Local Health Area, of which Leyburn Rural District is part, had been vaccinated with two injections

This figure represents some 94% of all the children under 15 years of age, compared with 89% in 1961. In addition some 399 older persons have also received two injections and 10.764 children have received a third injection.

### TUBERCULOSIS

Age group	New cases				Deaths			
	Pulmonary		Non-Pulmonary		Pulmonary		Non-Pulmonary	
	M.	F	M.	F	M.	F	M.	F
Under 1	-	-	-	-	-	-	-	-
1 - 4	-	-	-	-	-	-	-	-
5 - 14	-	-	-	-	-	-	-	-
15 - 24	-	-	-	-	-	-	-	-
25 - 34	-	-	-	-	-	-	-	-
35 - 44	-	-	-	-	1	-	-	-
45 - 54	-	-	-	-	-	-	-	-
55 - 64	1	1	1	-	1	-	-	-
65 +	-	-	-	-	-	-	-	-
Totals	1	1	1	-	2	-	-	-

There were 9 cases of Pulmonary and one of Non-Pulmonary Tuberculosis on the Register at the 31st. December 1961

This gives a rate of 1.6 cases of Tuberculosis per 1000 population as compared with 1.4 in 1961.

## W A T E R   S U P P L Y

---

Leyburn and all other parishes having piped water maintained by the Council had adequate supplies during the year 1962. The Bedale R. D. C. trunk main taking its water from the parish of Bellerby and having branches taken from it to the parishes of Bellerby, Barden, Hauxwell, Hunton, Newton-le-Willows and Patrick Brompton, continued to maintain a sufficient quantity of good quality water in each village.

The parishes having piped water, not under the control of the Council also enjoyed a sufficient supply during the year.

In the township of Leyburn, steps should be taken to provide every house with a supply from a storage reservoir. At the present time, approximately 150 dwellings and the new school are obtaining their drinking water direct from the lead mine adit on Preston Moor. The quality of the water fluctuates considerably, and after periods of heavy rain, the bacterial count rises and frequently has much vegetable matter in it.

Leyburn mains are too small in diameter to feed the town from the reservoir satisfactorily. Steps should be taken to renew all the mains that were laid more than 70 years ago.

The Sowden Beck reservoir, with its machinery to reduce the acidity of the water by adding lime to it, functioned satisfactorily throughout the year.

### BACTERIOLOGICAL   EXAMINATION OF WATER SAMPLES

---

The routine examination of supplies is regularly carried out. Samples are being despatched to the Pathologist at the Friarage Hospital, Northallerton..

Samples submitted	...	...	...	...	...	12
Samples found to be satisfactory	...	...	...	...	...	9
Samples found to be unsatisfactory	...	...	...	...	...	3

# W A T E R

The number of dwellings with water laid on from public mains, including parish undertakings, is as follows:-

Parish	Number of dwellings	Population
Agglethorpe-with-Coverham.	24	127

West Scrafton.	15	51
Total =	1895	5994

## HOUSING STATISTICS - 1962

The number of dwellings erected during the year by private enterprise numbered 9. The total number of private dwellings erected since 1945 is now 83. A second private hotel closed during the year, the owner submitting plans for the conversion of the building into self-contained flats. The number of persons per dwelling has remained at 3.

The Council has erected two bungalows at Leyburn, two bungalows and four houses at Newton-le-Willows, and in addition work has commenced on the erection of sixteen houses at Middleham, the first to be ready for letting in the new year. Sixteen Council houses were available for letting during the year.

# SEWERAGE AND SEWAGE DISPOSAL SCHEMES

There are thirty two parishes in the Leyburn Rural District. Twelve of these parishes consist mainly of isolated agricultural properties and generally speaking it is not practicable to prepare schemes for these areas. Several small hamlets have septic tanks which are maintained by the Council and of the 176 properties concerned most of these have modern amenities and private septic tanks.

The remaining parishes, with the exception of Leyburn, Middleham and Castle Bolton have sewers and works that can adequately cope with present day demands. Leyburn and Middleham lack sludge drying facilities and it is hoped to have these defects rectified in the very near future, land is available for extensions in both cases. At Castle Bolton the works are inadequate and are situated in close proximity to dwellings, here it is proposed to extend the main sewer and construct a combined scheme for Castle Bolton and Redmire. This scheme is now under preparation by the Council's Consulting Engineer.

Schemes completed during the past year - Preston-under-Scar.  
 Schemes commenced - Carlton & Melmerby Combined Scheme.  
 Schemes prepared and approved - Horsehouse.  
 Schemes under preparation and awaiting approval - Thornton Steward.  
 Schemes under preparation. - Redmire & Castle Bolton.

## PARISHES WITH SCHEMES ALREADY IN OPERATION

Parish	Properties served	Outside area served
Bellerby.	98	6

Total =	15	4	13	9	11	52

HOUSE PURCHASE & HOUSING ACT. 1959

The owners of 24 dwellings received payment of a Standard Grant towards the cost of improving and providing modern sanitation to their dwelling during 1962. The average grant per dwelling was - £92 - 0 - 0. Thirty seven applications were received, but not all were completed during the year. No applications were refused.

The applications were most numerous in the villages that have been recently sewered, some were from farm houses and isolated cottages, so situated that it is unlikely that a main sewerage scheme will ever be available. In all these cases septic tanks were constructed. Much time is spent upon these projects, advising owners, builders and occupiers and checking costs upon the completion of the works. Many more owners could improve the dwellings they own by means of grants.

## MEAT INSPECTION

Slaughtering of animals for meat for the population of our district continues to be carried out at Leyburn, where five butchers obtain their supplies, and one other small slaughterhouse at Spennithorne where one butcher kills for himself only.

Slaughtering takes place at week-ends in the Leyburn premises. Animals are inspected either on Sunday evenings or before 9 a.m. on Monday mornings and the meat is all in the butchers' shops by Monday afternoon. The quality of the meat continues to be very good, a very small proportion was found to be unfit, mainly livers with parasites. The slaughtermen and their assistants give all necessary help in the matter of hanging heavy carcasses and offals so that they could be more easily inspected.

### CARCASSES AND OFFALS INSPECTED DURING - 1962

	Beasts	Calves	Sheep	Pigs
Number killed	413	3	1312	369
Number inspected	308	3	906	262
<u>Condemnations</u>				
<u>Whole carcasses</u>	-	1	1	-
<u>Parts of carcasses or organs</u>	19	-	-	-

### INSPECTIONS CARRIED OUT BY PUBLIC HEALTH INSPECTOR

	Inspections	Informal Notices	Not complied with	Statutory Notices	Not complied with
Council's works	583	76	-	5	-
Housing.	794	4	-	6	-
Slaughterhouses.	76	-	-	-	-
Dairies.	26	-	-	-	-
Public Health Acts	478	72	-	-	-
Food Hygiene.	69	21	1	-	-
Total =	2026	173	1	6	-

The total number of food premises  
of all kinds in the district is 75 - made up as follows:-

Bakers	2	Cafes	7
Grocery	25	Fish	2
Sweets	2	Grocers(green)	5
Hotels	23	Confectioners	9

The number of food premises  
registered under Section 16 of the Food & Drugs Act. 1955, and the  
number of Dairies registered under the Milk & Dairies Act. 1949/54  
is as follows:-

Butchers	7
Fish friers	1
Ice Cream Retailers	34
Ice Cream Manufacturers	nil
Dairies	3

### FOOD HYGIENE REGULATIONS - 1955/6

The handling and preparation  
of food within the area is generally satisfactory, most of the local  
businesses are old family concerns and quite a number have installed  
the latest display and cold storage facilities. The number of  
mobile travelling shops increases yearly.

### M I L K

Bottling of tubercululin tested milk  
is undertaken at three dairies in the district. None of our  
retailers handle ordinary milk. In the smaller villages and  
hamlets, householders obtain their supplies direct from farmer  
producers by arrangement with the authorities.

### DISPOSAL OF UNSOUND FOOD.

Food found to be unfit for human  
consumption and surrendered by shop keepers and others is destroyed  
by burning. Unsound meat from the slaughterhouse is taken away by  
contractors each Wednesday. It is processed and converted into  
fertilisers and animal foods. During the year the following articles  
of food from retail shops were dealt with and destroyed.

<u>Item</u>	<u>Number</u>	<u>Weight</u>
Corned beef	1 - tin.	6 lbs.
Boneless ham.	1 - tin	10 lbs. 10 oz.
Ox tongue & beef.	8 - jars.	2 lbs. 4 oz.
Apples	2 - tins.	14 lbs. -

REFUSE ..... COLLECTION AND DISPOSAL  
.....

The number of properties participating under this service continues to increase annually, many isolated farms and dwellings are quite willing to convey their bins to the highway in order to partake of the service, this is a great saving in time as a door to door service would so increase the time factor to necessitate a second team.

The team of three men and a Karrier vehicle have given satisfactory service, justifiable complaints have been few and far between. The tip at Preston-under-Scar which came into use at the latter end of the year has proved most useful, it was found, however, that during periods of heavy rainfall, the road along the quarry bottom flooded and this problem was overcome by the construction of a roadway at the south end of the quarry direct from the County Highway.

It is regretted that no suitable tip has been found for the villages in Carlton Highdale, the location of a suitable site is made still more difficult as the area is situated within the National Park.

The Leyburn Market Place bins are emptied every week-end after the Market, this service has done much to improve the standard of tidyness. Several Parish Councils are erecting their own litter baskets and these are emptied by our men during the normal routine service. The tips are maintained by the collecting team, paper etc. is burned, the remainder, when consolidated, is covered with soil or quarry dust if the former is not available. All tips are gated and locked, this action has been necessary to prevent indiscriminate tipping by the general public. Persons wishing to dispose of rubbish can apply for the keys and by this method a check can be kept and tips maintained in a satisfactory condition.

The cost of the scavenging service for the year 1962 amounted to £3354 - 0 - 0.

RODENT CONTROL  
DAMAGE BY PESTS ACT. 1949.

Regular inspections by our Rodent Operator have been carried out on our tips, sewers, works and properties. The older sewerage systems, such as, Leyburn and Middleham are found to require more attention than the new post-war schemes. At Middleham, with its numerous stables, the rat population has been kept under control. Many of the owners fully appreciate the damage done by rats and willingly co-operate. We continue to use "Warfarin" and assist where possible. A few reports of rats in dwellings are received and in these cases our operator pays a visit, lays the necessary bait and checks results.

# FACTORIES ACTS - 1937-1959

## PART I
